Goal: PLL Therapist should attain a 90% or higher on IPR review.

Flow Chart for IPR Supervision

1. COE sends video to Bob Kelly

2. Bob uploads entire video onto PLL private server and sends link to PLL Supervisor for viewing

3. PLL Supervisor clicks link and views entire video and completes IPR on entire video. Then PLL supervisor emails Bob the minutes for editing 2 or 3 scenes for supervision. (Scenes should be no more than 3-4 minutes in length)

4. Bob edits video & emails link to PLL supervisor (Bob then deletes the entire video from the PLL private server)

5. PLL Supervisor conducts IPR Supervision, showing the clips one at a time and discussing strengths and areas to improve.. Each clip should illustrate strengths and also key areas to improve. Key areas for improvement are written on the IPR and therapist is instructed to do another video of same session to demonstrate the “before” and “after” improvement. If applicable, PLL Supervisor shows a “best of” clip of the section to illustrate the desired skill set. Goal for the PLL Supervisor is to be DIRECTIVE, CRISP, TELL THE THERAPIST THE STRENGTHS YOU SEE AND WHAT YOU WANT TO SEE IMPROVED. BE STRATEGIC AND IDENTIFY A SPECIFIC NUMBER OF IMPROVEMENTS YOU WANT TO SEE NEXT TIME. Use very few “what do you think” questions and lean more heavily on giving directives. Any clips that demonstrate the “best of”, obtain permission from the therapist to add to our “Best of” album for training usage.

6. PLL Supervisor sends IPR Document to the COE Team in the Supervision Summary

7. PLL Supervisor sends IPR to Bob to enter in Dashboard and also notifies Bob & Ellen of any clips to be edited for the “Best of” album
