Based on Dr. Sells' book, *Parenting Your Out-of-Control Teenager*, this two-day certification training will show you how to set up, market, and conduct your own 3 to 6 week *Parenting With Love and Limits*® Psychoeducation program. #### The materials you will receive as part of your tuition include:

- ▶ 2-Day Certification Training
- ▶ Hosting on [www.difficult.net](http://www.difficult.net) Client Referral Search Engine
- ▶ 1 *Parenting Your Out-of-Control Teenager* Book
- ▶ 1 PLL Psychoeducation Leader's Guide
- ▶ 1 Parenting Video on DVD (All Six Parenting Classes)
- ▶ 1 Parent Workbook
- ▶ 1 Set of Class Overheads on PowerPoint®

- ▶ You want to observe as the instructor conducts actual parenting classes with parents
- ▶ You want to learn how to break through even the toughest parental resistance
- ▶ You want to be set up on a nationwide referral network on [www.difficult.net](http://www.difficult.net). Parents will be directed to the website to look for SFI-trained trainers

## New Resource

### You Will Receive:

- 1 Parenting Your Out-of-Control Teenager Book
- 1 Study Guide
- 1 7-Step Survival Kit Video Series

- Step One:** Understanding Why Kids Misbehave
- Step Two:** Ironclad Contracting
- Step Three:** Troubleshooting
- Step Four:** Button-Pushing
- Step Five:** Stopping the 7 Aces
- Step Six:** Working With Outside Helpers
- Step Seven:** Restoring Lost Nurturance

### The Problem:

Parents of oppositional defiant and conduct disordered children and teens are often highly resistant and difficult to engage in the treatment process. Counselors want to get these parents more involved.

### The Solution:

Parent involvement will likely triple if they are given a step-by-step road map with video clips that clearly demonstrate what to do, how to do it, and what to do if Plan A fails.

"Out-of-control teens and children don't like this kit. It reveals their trade secrets. One child actually threw himself in front of the television to stop his parents from watching!"  
**Pat Baxter, LMFT Omaha**

"The Survival Kit breaks through parent resistance. It starts when parents take home the kit. They call me all excited and ask when the next appointment is so they can practice what they saw [on the video] or wrote down in their study guide."  
**Mary Ann Sartori, LCSW**
